Summary

AI Specialist Currently an AI Intern at Unified Mentor Pvt Ltd, focusing on AI-driven data automation, workflow optimization, and high-accuracy data validation. Expert in building responsive interfaces with React.js and robust backend systems using Java, Spring Boot, and Hibernate. Proven track record in building scalable web applications and securing network infrastructures at Bharat Electronics Limited.

Technical Skills

- **Languages:** Java (Core & Advanced), JavaScript (ES6+), SQL.
- **Web Technologies:** React.js, HTML5, CSS3, Hibernate.
- **Frameworks:** Spring, Spring Boot.
- **Databases & Tools:** MySQL, MySQL Workbench, Eclipse, VS Code, IntelliJ IDEA.
- **Networking & Security:** LAN/WAN configuration, IP addressing, Routing & Switching.
- **AI & Data Analysis:** AI-assisted development, Excel (Pivot Tables, Dashboards, Data Cleaning).

Work Experience

Hourly Recuirt Tech Labs| Junior Software Engineer| May 2026 – Present

- Developed backend applications using **Java 21, Spring Boot, Spring Data JPA, Hibernate, and MySQL**.
- Designed and implemented secure **RESTful APIs** with **JWT Authentication**.
- Documented and tested APIs using **Swagger UI** and **Postman**.
- Managed source code using **Git** and **GitHub**, including branching, commits, and pull requests.
- Built and managed projects using **Maven** while following layered architecture

Bharat Electronics Limited (BEL) | Graduate Apprentice Trainee Engineer | Jan 2024 – Jan 2025

- Administered and optimized large-scale LAN networks, configuring routers and switches to ensure 99.9% network uptime for mission-critical operations.
- Strengthened cyber security posture by monitoring network traffic, identifying vulnerabilities, and documenting security incidents to comply with federal audit standards.
- Troubleshoot complex hardware and server issues, resolving over 50+ technical tickets monthly and maintaining seamless connectivity across departments.

Projects

AI VIRTUAL MOUSE USING MACHINE LEARNING

- **Architected a gesture-controlled interface** using Python and Computer Vision, allowing for 100% touchless navigation of OS functions.
- **Leveraged MediaPipe to track 21 distinct hand landmarks** in real-time, achieving high-precision cursor movement with minimal latency.
- **Integrated PyAutoGUI and OpenCV** to map specific finger gestures to mouse actions (click, scroll, drag), improving accessibility for users with physical impairments.

Education

- **B.E. in Computer Science & Engineering** | Government Engineering College, Haveri | **2023**
- **Diploma in Computer Science** | Government Polytechnic, Harihar | **2020**

Certificates

- **Java Full Stack Web Development** | TAP Academy, Bangalore (6 Months)
- **Graduate Apprenticeship Training** | Bharat Electronics Limited (1 Year)
